## Landscape Project Design & Consultancy

A landscape project involves the arrangement, design, and development of a piece of land or space. This process aims to bring together natural and artificial elements to create an aesthetically appealing, functional, and sustainable outdoor environment.

## Landscape Implementation

In every facet of life, the need to connect with nature drives us to seek integration with greenery in our surroundings. This quest renders our living spaces, parks, and even workplaces aesthetically and ecologically valuable. Recognizing this value, we offer professional solutions in the realm of landscape design and implementation.

## Foreign Trade

Plants represent not only the beauty of nature but also the lifeblood of existence. At Yedi İklim Peyzaj Mimarlık, we aspire to bring this beauty everywhere through specialized plant exports to different climate regions worldwide.

## Periodic Garden Maintenance

Your garden is a special space that connects you with nature. Maintaining its aesthetic beauty in a healthy and vibrant state requires professional care. This is where we come in. With our offered periodic garden maintenance services, we ensure that your garden remains in its best condition at all times.

## Wholesale Distribution of Ornamental Plants and Other Landscape Products

✦ Making the right plant selections is of vital importance to enhance the aesthetics and energy of your living spaces. With this awareness in mind, we are here to serve you with our extensive and high-quality variety of ornamental plants. Through our ornamental plant marketing and sales services, we enable you to rejuvenate your home, garden, or workplace.

## Retail Sales (Garden Market)

✦ With a desire to create an experience beyond shopping, we offer retail sales services with a wide range of products and personalized assistance, aiming to provide you with a unique and tailored approach.
